

COIN

Unique ID: BERK-FF1337

Object type certainty: Certain

Workflow status: Awaiting validation

A possible contemporary forgery of a Roman silver plated denarius probably copying an issue of Septimius Severus (AD 193-211). There is significant material loss and green copper corrosion product around the edges of the coin suggesting it is on a copper alloy core and therefore irregular. Reece period 10. Dimensions: diameter 16.7mm; thickness 2.4mm; weight 1.75g

Notes:

Found during the Weekend Wanderers King Alfred the Great Rally 26-28 Aug 2006

Subsequent actions

Current location of find: Returned to finder

Subsequent action after recording: Returned to finder

Chronology

Broad period: ROMAN

Subperiod from: Early

Period from: ROMAN

Subperiod to: Late

Period to: ROMAN

Date from: Circa AD 193

Date to: Circa AD 211

Dimensions and weight

Quantity: 1

Thickness: 2.4 mm

Weight: 1.75 g

Diameter: 16.7 mm

Discovery dates

Date(s) of discovery: Sunday 27th August 2006

Rally details.

This object was found at [Weekend Wanderers - King Alfred the Great 06](#)

Personal details

Recorded by: Mr Garry CRACE

Identified by: Mr Robert Webley
Secondary identifier: Mr Garry CRACE

Other reference numbers

Other reference: Ticket no. Ylo. 209

Materials and construction

Primary material: Copper
Manufacture method: Struck or hammered
Completeness: Incomplete
Surface Treatment: White metal coated

Spatial metadata

Region: [South East](#) (European Region)
County or Unitary authority: [Oxfordshire](#) (County)
District: [Vale of White Horse](#) (District)
To be known as: Letcombe Regis

Spatial coordinates

Grid reference source: From finder
Unmasked grid reference accurate to a 10 metre square.

Discovery metadata

Method of discovery: Metal detector
Current location: Returned to finder
General landuse: Cultivated land
Specific landuse: Operations to a depth greater than 0.25m
