Clipped silver siliqua, possibly of Julian as Augustus (360-3), VOT/X/MVLT/XX, possibly Lyons or Arles, 360-3. RIC VIII, c.f. Lyons 234 / Arles 309. The original record suggested Valentinian I, but the reverse type is much more common for Julian (it only being used at Eastern mints in Valentinian's reign).

This record was created before the Portable Antiquities Scheme began using the Central Database. We are aware that this record may fall below our usual standards of recording, and we are working to rectify this.
