

BROOCH

Unique ID: LIN-D00147

Object type certainty: Certain

Workflow status: Awaiting validation

Enamelled copper alloy brooch in the form of an axe. The axe has a wide angled blade that narrows to the centre and flares again at the butt end. The upper perimeter is straight whereas the lower one is concave. There is a small integral loop at the top of the shaft. Both the axe and the shaft are recessed and decorated with blue enamel. There is a double lug on the reverse of the axe and a catchplate on the reverse of the lower part of the shaft. Remains of a copper alloy spring lie between the lugs. The pin is missing.

Class: Axe

Subsequent actions

Subsequent action after recording: Returned to finder

Chronology

Broad period: ROMAN

Subperiod from: Early

Period from: ROMAN

Date from: Circa AD 75

Date to: Circa AD 150

Dimensions and weight

Quantity: 1

Length: 31 mm
