# **COIN**

**Unique ID:** HAMP-EA4B73

Object type certainty: Certain Workflow status: Published

A very worn silver Roman Republican denarius of P. Licinius Nerva, c.113-112 BC (Reece period 1). P NERVA reverse type depicting a Voting scene, one figure on left of pons receives ballot from attendant below, another figure on right of pons places ballot in cista. At top of coin a bar on which stands a tablet bearing the letter P. Mint of Rome. As RRC no. 292/1

#### **Notes:**

This coin is part of a group of twenty-four Roman Republican and early imperial coins reported to the Portable Antiquities Scheme together with other groups of Iron Age and Roman coins in 2005. The majority of the gold and silver coins spanned a period from the mid first century BC until the mid 2nd century AD. The group of twenty-four coins appear to represent addenda to the earlier 'Winchester Hoard', discovered by the same finder (published in TAR 2001, no.181). The current coins are consistent with the earlier hoard in terms of their type and condition, and the possibility that they originated at the same site is supported by the fact that the finder was known to have revisited the site on occasions after the discovery of the hoard. The original hoard comprised three Roman Republican period silver denarii, one denarius of Augustus (27 BC-AD 14) and one denarius of Tiberius (AD 14-37). The twenty-four coins belong to the same periods: The earliest is a Republican coin of 113 or 112 BC and the latest are a gold aureus and silver denarius of Tiberius, both struck between AD 14 and 37. The hoard has gone through the Treasure process as case 2006 T163. There are 73 obverse and 91 reverse dies known for this coin type - this is quite a common issue.

### **Subsequent actions**

Current location of find: Winchester Museums Service Subsequent action after recording: Acquired by museum after being declared Treasure

## Treasure details

Treasure case tracking number: 2006T163

# Chronology

Broad period: ROMAN
Period from: ROMAN
Period to: ROMAN
Pata from: Circa 113 B

Date from: Circa 113 BC Date to: Circa 112 BC

# Dimensions and weight

Quantity: 1

Length: 16.35 mm Width: 15.7 mm Thickness: 1.9 mm Weight: 3.45 g

## **Discovery dates**

Date(s) of discovery: Wednesday 1st September 2004

### **Personal details**

This information is restricted for your access level.

#### Other reference numbers

Other reference: 2006 T163 Treasure case number: 2006T163

Museum accession number: WINCM: C6500

# **Materials and construction**

Primary material: Silver

Manufacture method: Struck or hammered

Completeness: Complete

# **Spatial metadata**

Region: South East (European Region)

County or Unitary authority: <a href="Hampshire">Hampshire</a> (County)

District: Winchester (District)
To be known as: Winchester

# **Spatial coordinates**

Unmasked grid reference accurate to a 0.01 metre square.

# **Discovery metadata**

Method of discovery: Metal detector

Current location: Winchester Museums Service

General landuse: Cultivated land
