Unique ID: DOR-01E360

Object type certainty: Certain

Workflow status: Awaiting validation

22 sherds of pottery vessel which probably contained a hoard of 292 Medieval silver coins. The sherds retrieved appear to be from more than one vessel, however. The fabric has a reduced grey core and oxidised orange surfaces. It is tempered with fine sand. There are two bases, one with a footring, and the rest are body sherds. The footring base is probably late medieval, the other pieces are probably earlier. Date: Medieval
