

STRAP FITTING

Unique ID: DUR-817823

Object type certainty: Certain

Workflow status: Awaiting validation

Cast copper alloy Roman strap slide. It is rectangular in plan and is incomplete with both long edges being broken and uneven. The front face is enamelled with a central line of 4 lozenges filled with yellow enamel. On either side of these lozenges are triangles filled with red enamel and on the outside of these is a row of larger blue triangles. The edges are then broken but it appears that there is a further row of red triangular cells on the outside edge. The reverse is plain and has a rectangular loop which is placed just off-centre.

Chronology

Broad period: ROMAN

Period from: ROMAN

Date from: Circa AD 43

Date to: AD 410

Dimensions and weight

Quantity: 1

Length: 20.19 mm

Width: 15.44 mm

Thickness: 8.32 mm

Weight: 4.6 g

Discovery dates

Date(s) of discovery: Monday 1st June 2009

Personal details

This information is restricted for your access level.

Materials and construction

Primary material: Copper alloy

Secondary material: Enamel

Manufacture method: Cast

Completeness: Incomplete

Surface Treatment: Inlaid with enamel

Spatial metadata

Region: [Yorkshire and the Humber](#) (European Region)

County or Unitary authority: [North Yorkshire](#) (County)

District: [Harrogate](#) (District)

Parish or ward: [Dishforth](#) (Civil Parish)

Spatial coordinates

4 Figure: SE3873

Four figure Latitude: 54.151422

Four figure longitude: -1.419682

1:25K map: SE3873

1:10K map: SE37SE

Grid reference source: Centred on village (which isn't a parish)

Unmasked grid reference accurate to a 1000 metre square.

Discovery metadata

Method of discovery: Metal detector

General landuse: Cultivated land

Specific landuse: Character undetermined
