

WEIGHT

Unique ID: DUR-85AFE2

Object type certainty: Certain

Workflow status: Awaiting validation

Rectangular lead weight, Post Medieval in date. It is not quite a rectangle, one end being narrower. It has a grooved pattern on the front, probably meant to represent a scallop. It is possible this was used as a trade weight and that the scallop symbolises a certain weight.

Chronology

Broad period: POST MEDIEVAL

Period from: POST MEDIEVAL

Date from: AD 1500

Date to: AD 1800

Dimensions and weight

Quantity: 1

Length: 14.37 mm

Width: 10.06 mm

Thickness: 3.01 mm

Weight: 3 g

Discovery dates

Date(s) of discovery: Wednesday 1st July 2009

Personal details

This information is restricted for your access level.

Materials and construction

Primary material: Lead

Manufacture method: Cast

Completeness: Complete

Spatial metadata

Region: [Yorkshire and the Humber](#) (European Region)

County or Unitary authority: [North Yorkshire](#) (County)

District: [Ryedale](#) (District)

To be known as: Malton Area

Spatial coordinates

Grid reference source: From a paper map

Unmasked grid reference accurate to a 0.01 metre square.

Discovery metadata

Method of discovery: Metal detector

General landuse: Cultivated land

Specific landuse: Character undetermined
