

SEAL MATRIX

Unique ID: WAW-28F323

Object type certainty: Certain

Workflow status: Published

A cast lead seal matrix, circular and flat with a suspension loop in the centre of the reverse. The central motif is an eight pointed star with a pellet in each section, within a grooved border.

The inscription appears to read '+S' R'ASEL FILL' . WILL NICHOL' - (Seal of Rasel? son or daughter of William Nichol). The first name has proved difficult to read or decipher, there being no obvious candidate ending in ...asel. There may be another letter between the R and the A, and it is possible that the R may in fact be a P. Apart from this, however, the matrix is easy to read and the name of William Nichol is clear, although there may be an illegible letter after his surname. 13th century.

Inscription: +S' R'ASEL FILL' . WILL NICHOL' -
