

UNIDENTIFIED OBJECT

Unique ID: LVPL-7F8CD7

Object type certainty: Certain

Workflow status: Awaiting validation

Cast copper alloy fitting probably dating to the Medieval period, (1100-1500). The object is oval in plan and flat. The object has two rectangular perforations between which are two vertical flat decorative ridges. Two horizontal ridges run from the outer edge of the perforations to the edge of the object. Each side of the object is damaged next to the ridges. The rear of the object is undecorated and appears to have been hammered. The object possibly functioned as a lock plate however this is uncertain. It has a dark green patina and is in good condition.

Subsequent actions

Subsequent action after recording: Returned to finder

Chronology

Broad period: MEDIEVAL

Date from: Circa AD 1100

Date to: Circa AD 1500

Dimensions and weight

Quantity: 1

Length: 42.55 mm

Width: 29.64 mm

Thickness: 1.48 mm

Weight: 7.2 g

Discovery dates

Date(s) of discovery: Tuesday 1st November 2011

Personal details

This information is restricted for your access level.

Materials and construction

Primary material: Copper alloy

Manufacture method: Cast

Completeness: Incomplete

Spatial metadata

Region: [East Midlands](#) (European Region)

County or Unitary authority: [Lincolnshire](#) (County)

District: [North Kesteven](#) (District)

To be known as: Scopwick

Spatial coordinates

Grid reference source: Centred on field

Unmasked grid reference accurate to a 0.01 metre square.

Discovery metadata

Method of discovery: Metal detector

Discovery circumstances: Found while metal detecting

General landuse: Cultivated land

Specific landuse: Character undetermined
