

BROOCH

Unique ID: DEV-7B0692

Object type certainty: Certain

Workflow status: Awaiting validation

Small cast copper alloy Roman brooch. It is T-shaped, with short wings. Attached to each end of the wing is a small lug, which the spring would have fixed to (now lost). The wing has a curved section and it may be that the pin hinge would have been visible and so a feature of this otherwise plain brooch.

Subsequent actions

Current location of find: With finder

Subsequent action after recording: Returned to finder

Chronology

Broad period: ROMAN

Period from: ROMAN

Dimensions and weight

Quantity: 1

Length: 29 mm

Width: 17.5 mm

Weight: 4.86 g

Discovery dates

Date(s) of discovery: Wednesday 1st January 2003

Personal details

Found by: This information is restricted for your login.

Recorded by: Ms Nicola Powell

Identified by: Ms Nicola Powell

Materials and construction

Primary material: Copper alloy

Manufacture method: Cast

Completeness: Incomplete
