# **COIN**

Unique ID: LIN-BA38A9

Object type certainty: Certain Workflow status: Published

A Roman copper-alloy dupondius of Claudius (41-54). CERES AVGVSTA reverse type depicting Ceres enthroned left, holding corn-ears and torch. Struck Rome AD41-2. Possibly a contemporary copy. For type, cf. RIC I (revised edition), p. 127, no. 94. Diameter 28mm, weight 10.40g.

Robert Kenyon, following on from the work by the French scholars P-A. Besombes and M. Bompaire (in Trésors Monétaires XXI, 2005), is working through the British examples of Claudian coinage recorded through the PAS assigning many so-called Claudian contemporary copies to Roman auxiliary mints which operated at Lyons (Gaul) and in Spain. This example is from the Lyon I, à la Grosse Tête, mint.
