SCRAPER (TOOL)

Unique ID: YORYM-AE086E

Object type certainty: Certain

Workflow status: Awaiting validation

A complete knapped lithic implement of late Neolithic to early Bronze Age date, circa 2700 - 1600 BC. The implement is a scraper formed from a secondary flake which is fan-shaped with a D-shaped section. The ventral surface is smooth with a large negative scar and prominent ripples of percussion. The dorsal surface is irregular. Short, sub-parallel, semi-abrupt retouch is present on the distal edge.

The flint is a dark grey colour with cortex remaining at the proximal end. The implement is 44.3mm long, 30.6mm wide, 10.2mm thick and weighs 11.1g.
