VESSEL

Unique ID: PUBLIC-8D3611

Object type certainty: Certain

Workflow status: Awaiting validation

A small white lead pot mend, probably late roman to medieval. One side is roughly circular and convex, the other side is pear-shaped and flat. Between the two sides is a depression running around the artefact; this appears to contain fragments of pottery on one side. It could be from Roman to Medieval in date. Length 21.7mm, width 17.2mm, thickness 8.6mm, weight 14.5g.
