

BUTTON

Unique ID: LVPL-2C9748

Object type certainty: Possibly

Workflow status: Awaiting validation

A possible copper-alloy button missing its loop.

The object is concave and conical in shape, tapering around 9mm to a central, raised point on one side, and a small impressed line running around the circle, around 2mm from the edge. There is also a small central protrusion on the other side. From above, it has a slight oval, rather than circular, shape.
