

BUTTON

Unique ID: PUBLIC-3C2EE8

Object type certainty: Certain

Workflow status: Awaiting validation

An incomplete, cast, copper alloy, Post Medieval button c1600-c1720. The round button has a flat front and integral, drilled shank which has broken across the piercing. There is a crudely engraved design of a five or six bladed impeller, with a central circle and dot, with three further circles between blades near the edge. The button has a dark green patina.

Diameter 14.4mm. Weight 1.6g.
